ANISA KAJTAZI

Third-year CS student

Hard Skills

Programming: JavaScript, Java, PHP

Web: HTML, CSS, Bootstrap, jQuery, React

Databases: MySQL, MSSQL

Tools: Git, VS Code

APIs & Backend: Node.js,

Express

Code debugging and Testing

Soft Skills

Great communication

Creativity

Understanding of other
teammates

Attention to detail

Ability to learn quickly

Open to change

Driven to learn

Open to feedback

Interests

Python

C#

Artificial Intelligence

Web & Backend Development

Machine Learning

Profile

I'm a third-year student at UBT College, studying Computer Science and Engineering. Alongside my studies, I've completed certified courses at Probit Academy in JavaScript, jQuery, Bootstrap, PHP, and MySQL. I enjoy building user-friendly, responsive web applications and continuously look for hands-on challenges to grow my skills. I'm quick to learn, passionate about development, and excited to contribute to real-world tech projects.

Education

Primary School

"Faik Konica" Prishtinë, 2011-2020

Middle School (High School)

"Xhevdet Doda" Prishtinë, 2020-2023

Currently studying "Computer Science and Engineering" at UBT College, Prishtinë.

Certifications

JavaScript – July 2022

jQuery – January 2023

MySQL – May 2023

Bootstrap – July 2023

Awarded "Student of the Month" – November 2023

PHP – March 2024

Advanced C1 English – Oxford Studio June 2023

Projects

Simple Ball Game (HTML, CSS, JavaScript)

Flower Shop (HTML, CSS, JavaScript, jQuery, Bootstrap)

Book Recommendation (HTML, CSS, JavaScript, jQuery, Bootstrap, PHP)

Latest: Prison Manager (React.js, Node.js, Express.js, SQL Server, using the CMV (Component–Model–View) logic. It supports CRUD operations. Includes role-based permissions, form validation, dynamic routing, and Axios-based API communication with a SQL Server database.)
